DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

The building is two bays wide and four stories high. The building and foundation walls are brick.

The first story facade has been altered to accomodate flat, centered plate glass double doors surmounted by a flat single light transom and housed in a recessed entrance. Tripartite, flat plate glass windows with accompanying tripartite flat plate glass transoms flank the doors to either side. There is a single flat plate glass door in a recessed entrance to the left in the first story facade.

The 2nd and 3rd and 4th story facades rise in two identical bays. Each facade story is punctuated by a double flat casement windows with single lights flanked to either side by single flat casement windows with single lights. These flanking windows are separated from the center windows by wood mullions. Decorative metal grillwork lies at the foot of the windows.

The two bays of windows are gently recessed into a half arched opening that ends over the 4th story facade windows. All fenestration is symetrically organized. All windows are surmounted by painted over flat transoms five light transoms over the double window elements and two light transoms over the single light window elements.

The projecting cornice is supported by three decorative brackets that extend down the facade wall to extra molding. A shallow parapet wall crowns the building facade.

STATEMENT OF SIGNIFICANCE

Significant as a well proportioned and finely detailed representative example of a classical commercial style building. As a later addition to the block, dating c. 1910, the building retains the scale of the earlier structures. Historically significant as representing one of the last structures of this type built in the Central Business District.
